Education Interests and Accomplishments

Curriculum and Course Development

The Vibration of Energy Series: Introduction to Holistic Therapeutic Modalities 1 college credit didactic / practicum course, Primary Author, Primary Faculty Augsburg College Minneapolis, Minnesota This course was a 45 hour- 1 college credit elective course developed with a didactic and practical application of knowledge synthesized in the area of Holistic Therapeutic Modalities for treating patients with symptoms of chronic disease, pain, and daily self-care. This was an intensive 3-day -10-hour face to face course. Students also participated in an additional 15 hours of independent study to develop a research paper on 5 integrative healing modalities discussed in class and develop five patient plans of care to be utilized and implemented in the clinical setting. Each student participated fully in all levels of the course and utilized their developed plans of care in the clinical setting with positive feed-back from the patients. Feed-back	01/2014 - Present
---	-------------------

from patients included stating their pain was resolved, pain was relieved to a tolerable level, stress level was reduced, sleep has improved, slept all night, nervous energy faded away, and felt like more energy was present.

Augsburg College
Minneapolis, Minnesota

Vibrational Energy Medicine - Associated with Advanced Pathophysiology 01/2014 - Present

1 college credit didactic course, Primary Author, Primary Faculty Augsburg College Minneapolis, Minnesota This course is a 45 hour- 1 college credit course developed as a didactic supplement to Advanced Pathophysiology course. Students participated in learning about select physiologic systems and their corresponding physical energetic systems normal function, alterations, clinical manifestations of symptoms of illness, and learned and practiced holistic therapeutic modalities for restoration of energetic and physiologic balance. A research pathophysiology paper was developed with case-based approach for a physical disease state (i.e. Pancreatitis), clinical manifestations, medical treatment modalities, complications, side effects, outcomes and describe the energetic system alteration effects of said disease, how to integrate holistic therapeutic modalities to foster patient healing and comfort.

Augsburg College
Minneapolis, Minnesota

Integrative Primary Care of Adults Clinical I 01/2014 -07/2016

135 hours clinical practice course, Co-Author, Primary Faculty, Clinical Director Augsburg College Minneapolis, Minnesota This clinical course corresponds to the systems and structure of Integrative Primary care of Adults I. Students were supervised in the clinical area and in post clinical debriefing patient care conferences.

Augsburg College
Minneapolis, Minnesota

Physical & Holistic Health Assessment 01/2014 07/2016

3 college credit didactic and 1 credit (15 hours) clinical course, Primary Author, Primary Faculty Augsburg College Minneapolis, Minnesota Primary Care holistic physical assessment didactic/practical course designed to develop and increase Family Nurse Practitioner students' holistic assessment skills in the following areas: physical, emotional, social, spiritual assessment, correlate symptoms with disease process and develop a plan of care based on evidence based medical research. The 1 credit clinical course was 15 hours in the clinical setting performing complete history and physical examinations of pediatric, adolescent, and adult patients, making recommendations for treatment of illness management.

Augsburg College
Minneapolis, Minnesota

Integrative Primary Care of Adults 01/2014 -07/2016

3 college credit didactic course, Co-Author, Primary Faculty Augsburg College Minneapolis, Minnesota This 3 college credit, 45 hour course was co-developed and taught to DNP/FNP students to teach the foundation for Primary Care Family Practice assessments and interventions utilizing physical examination, interpretation of lab and diagnostic testing, evidence based research, and integrative holistic therapeutic modalities of health care.

Augsburg College
Minneapolis, Minnesota

Advanced Pathophysiology and Vibrational Energy Medicine 2014 - 07/2016

3 college credit didactic course, Co-Author, Primary Faculty Augsburg College Minneapolis, Minnesota This is a 45-hour didactic 3 college credit course developed to provide students with a background in advanced pathophysiology alterations, advanced understanding of cellular alterations manifesting in the disease process. The course also taught the corresponding physical energetic systems normal function and energetic alterations associated with the physical systems (i.e. respiratory, circulatory, endocrine system), clinical manifestations of

symptoms of illness, and learned and practiced holistic therapeutic modalities for restoration of energetic and physiologic balance, with integration of evidence-based medicine research for patient management.

Augsburg College
Minneapolis, Minnesota

Integrative Primary Care of Adults in Native American Culture 01/2014 -07/2016

60 hours clinical practice course, Co-Author, CO- Faculty, Clinical Director
Augsburg College Minneapolis, Minnesota This course was specifically developed to provide the students personal experience in the Native American culture on the Reservation providing primary care as an intensive clinical experience over the span of one week. This course was directly supervised by me for all clinical hours and all daily post clinical conferences.

Augsburg College
Minneapolis, Minnesota

Integrative Primary Care of Adults Clinical II 01/2014 -07/2016

90 hours clinical practice course, Co- Author, Primary Faculty, Clinical Director
Augsburg College Minneapolis, Minnesota This clinical course corresponds to the systems and structure of Integrative Primary care of Adults II. Students were supervised in the clinical area and in post clinical debriefing patient care conferences

Clinical Practice, Interests, and Accomplishments

Educational Practice has included returning to the classroom to obtain a Doctor of Nursing Practice (DNP) degree in 2013. The work I did with the DNP reflected my life work in holistic care of the patient. I have studied holistic practices of health care of indigenous people from all over the world. I have been to Guatemala, Oaxaca, England, Black Hills, and Northern Minnesota on multiple occasions to learn from the indigenous people of these lands. They shared their wisdom and cultural practices for retaining and obtaining a healthful state of being. including physical, emotional, spiritual, and energetically. I have learned all about herbal therapy and care of the Medicine Man or Medicine Woman. The richness of the cultural experiences are translated into my work at Mayo Clinic with diversity to meet the needs of the patient from their cultural perspective.

A private Energy Medicine practice has enriched my life and deepened my relationship with Spirit. This had become the focus of my Energy Medicine practice. Bringing Spiritual Awareness to others is the key to healing. Since September 3,2019 I have retired my Nursing Cap and no longer work as a Hospitalist Nurse Practitioner. My life is dedicated to enriching the lives of others 'Through The Energies'!! This is accomplished through individual healing sessions and teaching people of all ages how to correct energetic imbalances with-in self and others.

Research Interests and Accomplishments

A holistic approach for change in the treatment of chronic illness, Doctoral research project, Augsburg College, Rochester, MN, 2013, Feb

Creating a nurse practitioner database: A critical need for east-northeast Missouri, A research project in part of the works in process of Kuehn, A.F. (principle investigator), Ayres, K., Ballentine, K., Company, P., Diggins, C., Kellison, S., and Kinnamon, D., VanKanegan, G. Establishing a nurse practitioner database for Missouri: A four-phase comprehensive study, University of Missouri: Columbia, 1996, April
